CHAT-GPT Introduction for Works Councils

When tasked with developing a chair based on the design principles of 'Rietveld,' Artificial Intelligence (AI) managed to create an aesthetically pleasing design. However, when it comes to practical use – sitting on the chair – it tumbles, causing one to fall. This highlights that AI is not flawless, yet it can serve as a valuable tool in various applications.

Join us for a workshop on CHAT-GPT, led by international technology lawyer Khaoula El Ahmadi, specializing in Privacy and AI. Khaoula, a frequent user of AI, particularly CHAT-GPT, will provide insights into its usage, practical applications with dummy-accounts, potential risks, and advantages. She also has thought-provoking questions tailored for Works Council members.

Feel free to bring along a colleague; introducing someone earns you a 5% discount. With only **20 available spots**, your participation becomes official upon receipt of payment.

The workshop is scheduled for **March 11th**, running from **16:00 to 20:30** in the vicinity of Utrecht. The registration fee, including a simple meal, is **€260,- per person**, excluding VAT.

To secure your spot, subscribe by sending your details to ttajiri@incitamentum.com, attention to Tanea Tajiri. An invoice will be promptly issued, and upon payment confirmation, you will receive a confirmation of your registration. Act swiftly, as spaces are limited!
