## ARBO/Law on Health and Safety Introduction

ARBO becomes relevant when it resonates with your own workplace experiences and concerns. Often, we only become aware of the hazards or effects of Health, Safety, and Wellbeing policies and practices years after encountering specific workplace conditions. This emphasizes the significance of prevention and awareness. Issues such as burnout, sick building syndrome, heavy work, and stress can be analyzed through the lens of ARBO law. Understanding the legal requirements for a safe and healthy workplace and developing a sustainable policy are crucial aspects.

Our expert, Evard Boon, will guide you through these topics in an interactive manner, using numerous examples to bring the law to life and make the learning experience engaging.

The introduction workshop is scheduled for **June 26th**, from **09:00 to 17:00** in the surrounding area of Utrecht. To ensure an interactive setting, participation is limited to 15 individuals. The cost is **€350,- per person, excluding VAT**.

To secure your spot, please send an email to Tanea Tajiri at [ttajiri@incitamentum.com](mailto:ttajiri@incitamentum.com). Upon registration, you will receive an invoice, and your participation will be confirmed upon receipt of payment. Additionally, information about the venue will be provided. Act promptly, as there are limited spaces available for this informative session!
